Welcome Message from MAC 14 Chairperson / Organising Committee

Dear Friends and esteemed Colleagues,

Warmest Greetings from MEMS!

On behalf of the Organizing Committee, it is with great pleasure to share that the 14th MEMS Annual Congress 2024 (MAC 14), which will be held from 19th July to 21st July, 2024 at Hilton and Le Meridien Kuala Lumpur, Malaysia, has already registered almost 800 participants, with 240 abstracts received, the most by far since we organized the Congress!

Bringing the theme 'Invigorating Endocrinology: Harmonizing the Hormones', the Congress will take you on a journey of exploration and collaboration, delving into the latest advancements, breakthroughs, and challenges that define the forefront of endocrine research and clinical practice.

There is still time for you to register for this definitive & exciting Congress, if you haven't done so. Aside from getting the latest advances in research and updates on clinical care in endocrinology, we are organising the MAC Olympiad for the very first time, and bringing back the '*Tour d'MAC*' by popular demand!

- The MAC Olympiad is a team competition open to teams of 3's from hospitals to compete for the prestigious MAC Endocrine Challenge Trophy, plus cash prizes and individual medals.
- The '*Tour d'MAC*' provides an opportunity for all registered participants who visit all the exhibitors' booths to win very attractive prizes, in line with MEMS promotion for Healthy Living.

Not to forget the pre-congress workshop on 'Confirming & Localising Functioning Tumours', designed to provide training in detection and confirming functioning tumours of the pituitary, adrenal, and pancreas for endocrinologists, endocrine fellows and other interested specialists, taking place on the 18th July, 2024.

Beyond the scientific program, there will also be plenty of networking opportunities, forging connections that may spark new collaborations and fuel the collective pursuit of excellence in endocrine research and patient care.

I look forward to welcoming you at this Invigorating congress!

Yours Sincerely,
Dr Noor Lita Adam
