## Welcome Message from MAC 14 Chairperson / Organising Committee

Ladies and gentlemen, esteemed colleagues, and distinguished guests, On behalf of the Organizing Committee, it is my great pleasure to extend a warm welcome to each and every one of you to the 14th MEMS Annual Congress 2024 (MAC 14) – a convergence of minds and expertise in the dynamic field of endocrinology.

As we gather here today, we embark on a journey of exploration and collaboration, delving into the latest advancements, breakthroughs, and challenges that define the forefront of endocrine research and clinical practice. I am delighted to share that MAC 14 registered a total of 990 participants, the highest so far for our physical congress!

Our distinguished speakers and panellists, who are leaders in their respective fields, will share their insights and experiences, fostering intellectual discourse that is at the heart of scientific progress.

MEMS Annual Congress serves as a platform for the exchange of knowledge, ideas, and innovations that shape the future of endocrinology. We are very encouraged with the enthusiasm from our participants as we also received the highest number of abstract submissions this year, with a total of 247 abstracts accepted.

For the first time, this year we are introducing the MAC Olympiad, an interhospital Endocrine Challenge competition to earn the prestigious MAC Olympiad Trophy.

We hope all of you will attend the MAC Olympiad ~ It will be fun to also challenge ourselves in trying to answer the Quiz & cases put up by our panel! Beyond the scientific program, I encourage you to actively engage in networking opportunities, forging connections that may spark new collaborations and fuel the collective pursuit of excellence in endocrine research and patient care.

As we navigate these 2 & half days of learning and discovery, let us embrace the spirit of inquiry, curiosity, and collaboration that defines the essence of scientific exploration. May this conference be a source of inspiration, a catalyst for meaningful connections, and a platform for advancing our shared commitment to the betterment of endocrine health.

Thank you for being a vital part of this transformative gathering. Together, let us elevate the dialogue and chart new frontiers in endocrinology. Wishing you a stimulating and rewarding conference experience.

Yours Sincerely,  
**Dr Noor Lita Adam**  
Chairperson, Organising Committee,  
14th MEMS Annual Congress 2024 (MAC 14)
